Packing: 1 set

It is essential for cabinets to be **secured** against tipping! (Control the floor for suitability.)

The cabinet bottom needs to be secured below the runner against sagging.

Height Adjustment up to 85 mm (3 3/8")

Fast and easy assembly also for installation at a later time.

The new fitting system permits easy and quick removal of the trays and shelves.

Distance between suspension holes = 96 mm (3 3/4")

All suspension trays and shelves on pages **5.62** and **5.63** can be used in combination with each other.
