

Post Mounting Bearing Plate Kits

[illegible]

Nobody knows our line of supports and brackets like we do. That's why we make it easier on you. Instead of having to gather all the bolts, lock nuts and adhesives at your local hardware store you can order one of our kits along with your brackets to ensure you're ready to go!

3 - 3" or 3" x 3" Plates
3 - 3/8" x 3" Stainless Steel Bolts
3 - lock nuts
Brown, durable storage tool bag

For mounting our Post supports, these plates offer additional weight disbursement when mounted under the solid surface along with bolts into the threaded hole of the post.
