### VERSATILE AND DESIGNED WITH THE INSTALLER IN MIND

The HRV130FL was created to respond to the builder's and contractor's needs for new residential construction and regulatory requirements. While reliable and durable, it is a cost-effective solution that can be installed quickly and easily in medium to large-sized homes, thanks to these features:

- Heat recovery core with a sensible recovery efficiency of 75% at 32°F
- Pressure taps, balancing dampers and integrated hooks for quick, effective installation
- Integrated "snap-in" drain system installed in seconds with no additional parts
- Magnetic backdraft damper in the fresh air from outside and the exhaust air from building ports.
- Flippable for greater installation flexibility
- 6' power cord
- Very quiet operation
- ENERGY STAR® qualified

### REPAIRS AND MAINTENANCE

All parts of the HRV130FL can be removed in less than five minutes, allowing direct access for easy repairs. The low power consumption motor is permanently lubricated. Finally, the electronic circuit board eliminates electromechanical parts, reducing repair time to a minimum.

### WARRANTY

The HRV130FL is protected by a 5-year warranty on parts. The heat recovery core is covered by a lifetime warranty, with the original proof of purchase.
