

Enclume

UTENSIL BARS WR0, WR1, WR2, WR3, WR4, WR5 Enclume racks are the ultimate in Storage racks made.

WARNING:
**READ ALL OF THE INSTRUCTIONS
BEFORE ASSEMBLING AND USING
YOUR RACK.**

All of our hammered steel racks are finished with an industrial wax designed to give years of protection to the rack. Cleaning is easily done with a damp cloth. Dry thoroughly after cleaning. If a touch-up is ever needed we recommend a "Pledge" like wax product.

Enclosed you will find everything needed for the assembly and use of your storage rack. Two people make assembly and installation easier. The parts and hardware included are:

Hardware included:

2 – 2" Lag Screws
Toggle Kit

Components included:

1 – Utensil Bar
12 – Straight Pot Hooks – 48" bar
12 – Straight Pot Hooks – 42" bar
6 – Straight Pot Hooks – 36" bar
6 – Straight Pot Hooks – 30" bar
6 – Straight Pot Hooks – 24" bar
6 – Straight Pot Hooks – 18" bar

See reverse side for **ASSEMBLY AND INSTALLATION INSTRUCTIONS**

ASSEMBLY AND INSTALLATION INSTRUCTIONS for WR0, WR1, WR2, WR3, WR4, WR5

Enclosed you will find everything needed for the assembly and use of your storage rack. Two people make assembly and installation easier. The parts and hardware included are:

Hardware included:

2 – 2” Lag Screws
Toggle Kit

Components included:

1 – Utensil Bar
12 – Straight Pot Hooks – 48” bar
12 – Straight Pot Hooks – 42” bar
6 – Straight Pot Hooks – 36” bar
6 – Straight Pot Hooks – 30” bar
6 – Straight Pot Hooks – 24” bar
6 – Straight Pot Hooks – 18” bar

ASSEMBLY AND INSTALLATION INSTRUCTIONS

Rack Assembly

- 1) If your utensil bar is plated it is best to keep the tissue on during installation to avoid fingerprinting.
- 2) Mount the bar onto the wall using the two lag screws. The Lag Screws must go into the solid wood or into a wooden stud. Plasterboard or wall fasteners **will not** work and should **not** be used.
If your kitchen construction does not allow direct mounting into wood, consider mounting your utensil bar to an attractive piece of finished lumber and mounting that where studs allow. If you are mounting into plasterwall, use the Toggles provided and follow the directions in the kit.
- 3) All of our hammered steel racks are finished with an industrial wax designed to give years of protection to the rack. Cleaning is easily done with a damp cloth. Dry thoroughly after cleaning. If a touch-up is ever needed we recommend a "Pledge" like wax product.
- 4) The care and cleaning of copper and brass units must be done with a non-abrasive cleaner such as "Flitz". Chrome racks are best cleaned with a good quality glass cleaner. Our high quality plating will age and tarnish the same as solid material. A periodic cleaning will restore your rack to its original brilliance.

It is important that your rack is assembled correctly. If the unit is assembled or used incorrectly, it could become unstable and collapse, possibly causing injury.
