Installation instructions Farmhouse Sinks

General Recommendations:

Read installation and maintenance instructions thoroughly before installation. Inspect your sink for any noticeable damage before installation. Check all local applicable plumbing and building codes.

These instructions are based on application to composite material or solid surface countertop installation only; countertop application to stone, marble, granite or butcher-block should be referred to experienced countertop fabricator for custom installation.

Vigo Farmhouse series sinks are individually hand-crafted and Vigo suggests using experienced and professional installers only. For custom cutting of countertop and installation of the actual sink, on-site installation is also recommended. Acceptable variances are approximately 1/2 of an inch. Alignment to cut-out and precise application and trimming of any adhesive sealant are critical to a superior fit and finished look. Please take extra care in this regard.

Vigo Farmhouse series sinks require custom order cabinets. Consult your cabinet dealer.

Vigo does not accept any liability for damage to countertop, sink fixture, faucets or personal injury during installation. Warranty is void if installation instructions are not followed.
