

Acrylic is by-product of the US Space and is known to be one of the most versatile and successful materials in history. It is highly resistant to wear and tear, easy to clean and hygienic.

With an elastic structure it is resistant to impact and deformation, and any scratches to the surface can be easily polished out. Acrylic products are always bright in color, as the pigments disperse homogeneously, retaining their reinforcement and elegance for a lifetime.

Aquatica uses acrylic sheets from Lucite International UK - one of the world's leading manufacturers of acrylic, whose products meet our stringent quality standards.

Acrylic sheets are guaranteed to resist abrasion in line with a ten-year ageing test.

Acrylic Anti-Bacterial Characteristics

Aquatica's acrylic bathtubs have a homogenous, high-gloss finish, which naturally protects the bath surface from the threat of uninhibited bacteria growth.

The manufacturing of Acrylic tubs with our AquaHygiene™ technology, provides a continuous hygienic environment by preventing bacteria, and, with regular cleaning, remain unblemished and shiny for many years.

The Important Qualities of Aquatica® Acrylic Bathtubs

Warmth

Durability

Easy maintenance

Good mechanical resistance against scratches, wear and tear

Available on any color (on selected models)

Available to order with a warm air massage system (on selected models)

- 1 0.75" (19 mm) reinforcement layer allows safe installation of faucets
- 2 0.16" (4 mm) PMMA sanitary grade acrylic ensures hygiene, easy maintenance and durability
- 3 0.1"-0.2" (3-5 mm) Fiberglass GRP reinforcement layer for additional strength
- 4 0.5" (12 mm) ThermoMate Polyurethane Foam (PU) Thermal Insulation Layer - for added heat retention, sound insulation and mechanical resistance servicing (on selected models)
- 5 Up to 1" (25 mm) of reinforcement at the bottom ensures additional sturdiness, stability and eliminated risk of deformation over time
- 6 A solid steel frame construction with adjustable legs - for easy dismantling and folding to bring in narrow space (all models)
- 7 Removable decorative panels for easy installation and servicing (on selected models)
